NYC 9/11 Public Portal Document

**From:** Robert Brackbill
**To:** DiGrande, Laura; Peters, Eleanor; Walker, Deborah; Wheeler, Katherine; Wu, David
**Date:** 9/9/2004 11:21:23 AM
**Subject:** Monday 9/13 data meeting at 11:00

Jim and I will be at the EPA expert technical meeting on Monday.

Please go ahead and hold the data meeting even though we are not there. Laura, will you take lead on this meeting.

Topics to address include:

1. Preparation for Face to face meeting on 9/16 - update enrollment data for residents, develop maps of residents, another scan of uniformed workers, construction workers, etc.

2. Status of location data coding - this has some urgency.
I need for my analysis, direction and distance of residents
We had talked about assigning residents to blocks with direction and distance associated with each block.

3. Dust cloud location data I also need. Is there some way to get a rough assignment of how close people were to WTC towers when in dust cloud?

4. Data cleaning documentation - Laura has started to work on this. We will discuss at face to face for RTI's advice

5. Time line for next quarterly report - Also, if you have a chance discuss approach to quarterly. We may need a separate discussion later in the week on this.

Thanks,
Robert
