RE: Cleaning at the High School of Economics and Finance
100 Trinity Place New York, New York
Work Areas: Fan and Mechanical Rooms

Dear Mrs. Soroka,

Cleaning work was performed at the above referenced school from November 29 through November 30, 2001. Trio Asbestos Removal Corp. was the Contractor and Taylor Environmental Group, Inc. performed the air sampling at the completion of the general house cleaning work.

Based upon the final visual inspection and air sample results, the areas cleaned have met re-occupancy criteria as defined in all applicable federal, state and local regulations.

If you have any questions, or require further information, please do not hesitate to call. I hope we have satisfactorily assisted you in your environmental health concerns.

Sincerely,

Chris McElgun
Project Manager
