**Weather:*** **AM** 60 °F *Conditions:* Clear, variable breeze

**PM** 80 °F *Conditions:* Clear, moderate wind from the south

**Prepared by:** JJM

| ENTRY STATUS DATES Open | Closed | OBSERVATIONS AND COMMENTS |
|---|---|---|
| 0700 | 0730 | Site walk. Corrected workers for safety glasses, and respirators, operators for hard hats when out of the rig. |
| 0800 | 1000 | Site walk. Corrected workrs for safety glasses. Local 40 requested additional fire extinguishers. Bechtel environmental person personnel asked about getting used oil and antifreeze stored in one location. |
| 800 | 1000 | At the morning DDC safety meeting they informed us that all truckers must stop at wash station and not proceed until directed. We informed Tom Vario the man signing out all trucks to direct all truckers of the new direction. |
| 1000 | 1045 | Told some of Warrens crew to wear safety glasses. They all refused. Advised Amec supervisors of the situation and well as Tony Adams from Bectel. |
| 1050 | 1100 | Bectel and OSHA reps requested that respirators be worn by men at atrium. The local 40 foreman Warren refused to wear it. I requested he be removed from the job. |
| 1100 | 1145 | Bectel and OSHA requested that the 320L operator and the 550 operator keep a safe distance from each other when working high and low at the customs building. Told operators and also informed the 320 operator to wear safety glasses until the front windsheild was replaced. Spoke with Denny the formen and he said it would be repaired by the morning. |
| 1145 | 1200 | Assisted EPA reps in air sampling on the pile.<br>Site Walk. Corrected people about safety glasses |
| 1200 | 1230 | Bectel and OSHA rep requested that a barrier be put up in front of cylinder storage while cutting was ocurring in the area. We installed a sheet of ply wood between the areas and also placed a fire extinguisher in the area. |
| 1356 | 1410 | Bectel and OSHA reps identified an iron worker riding in a sling. Jeff T. interviewed crane operator and spoke with foreman. He was told if individual does it again he will be kick off job. |
| 1500 | 1530 | Corrected workers for ard hats, resp, and eye protection. |
| 1600 | 1630 | Bectel (Bob McFawley) commented that the attachments for hoisting may need to be reviewed, latches should be on hooks. |
