RE: Angel Aerial Equipment and Accessory Costing
ADDENDUM No. 2

Introduction

Thacher Associates (TA), as part of its site-wide environmental monitoring role, has examined Angel Aerial Corporation invoices and equipment not previously evaluated. Angel Aerial Corporation is a dust suppression contractor working at the site. To date the amount of work invoiced by Angel Aerial to the project is approximately 7.5 million dollars.

As a matter of background, on April 17, 2002, TA submitted its initial invoice evaluation report, which examined the period from October 15, 2001, through January 20, 2002. TA subsequently issued an Addendum to the Report on June 10, 2002. On June 19, 2002, TA submitted a memorandum regarding Ancillary Equipment Cost Analysis describing in detail the methodology of how TA developed the hourly rates utilized in the Memorandum Report and Addenda.
