9/18/01 2 sig figs or to 10's digit?
Spike concentration is 100 or 200?
Are those our blanks - not reported?
Combined our blanks?!

9/24/01 Why was spike < sample

9/27/01 Spike < sample → noted spike was old
Sig fig 2071 ⇒ 2070 (in 9/18/01 did to 10's)
2071 ⇒ 2100 (in 9/27/01 did two sig fig)
~~What was seq 27~~

233415 > 2000 highest standard - dilute?

Was spike $1/10^{th}$ level?

9/23/01 Spike ~ 2000

Spiked above highest standard. (forcing dilution)

Potassium - never running a blank except cal curve

10/9/01 OK

10/24/01 spike < sample?

24945 when couldn't get RSD to within limits,
went back to best and deleted worst rep.

Did same to QC! & 25264

Later in run didn't even try to rerun QC,

just pulled out one rep & recalculated

Treating QC different from samples

25263 > high std
