I conducted an inspection yesterday evening on the 10<sup>th</sup> floor area where there was ongoing Carpet cleaning. I met and spoke to the cleaning Supervisor Mr. Robert Guerra who informed me that the cleaning will continue until Friday. There were two workers cleaning the carpets by shampooing and deodorizing and at the same time sucking up the waste water. I later went round the entire 10<sup>th</sup> floor in the company of Mr. Guerra and I did not see any sign of suspect Acm debris. Follow up is still necessary of the carpet cleaning.
