PERMIT FOR MINOR WORK

ISSUE DATE: 07/08/02	EXPIRATION DATE: 07/10/2006	DOCKET #: 027246	PMW #: PMW 03-0098
ADDRESS 33 LIBERTY STREET <i>C19 Liberty</i> <u>Federal Reserve Bank of New York</u> INDIVIDUAL LANDMARK		BOROUGH: MANHATTAN	BLOCK/LOT: 66 / 1

ISSUED TO:

**Facilities Director
Federal Reserve Bank
33 Liberty Street
New York, NY 10045**

Pursuant to Section 25-310 of the Administrative Code of the City of New York, the Landmarks Preservation Commission hereby approves certain alterations to the subject premises as proposed in your application completed on July 8, 2002.

The approved work consists of cleaning the roof of the building of debris related to the collapse of the World Trade Center, including collecting all loose debris, washing loose gravel, and wet wiping other surfaces, as described in specifications prepared the City of New York Department of Environmental Protection and submitted as components of this application

In reviewing this proposal, the Commission noted that the designation report describes the Federal Reserve Bank of New York as a Florentine/Italian Renaissance style government building designed by York and Sawyer and constructed in 1919-1924. The Commission also notes that there is some debris on the roof.

Staff has reviewed these specifications and finds that the work on the roof will not require the removal of any significant protected architectural material; that it will not detract from the architectural character of the building or streetscape, and that cleaning the roof will bring the building closer to its historic condition. Therefore, the Commission has no objection to the work proceeding at this time, or the issuance of permits by any other city agency.

A copy of this permit have been sent to the Department of Environmental Protection.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents. Other work or amendments to this filing must be reviewed and approved separately. The applicant is hereby put on notice that performing or maintaining any work not explicitly authorized by this permit may make the applicant liable for criminal and/or civil penalties, including imprisonment and fines. This letter constitutes the permit; a copy must be prominently displayed at the site while work is in progress. Please direct inquiries to John Graham.

PERMIT FOR MINOR WORK

ISSUE DATE: 07/08/02	EXPIRATION DATE: 07/10/2006	DOCKET #: 027245	PMW #: PMW 03-0099
ADDRESS 90 MAIDEN LANE <u>90-94 Maiden Lane</u> INDIVIDUAL LANDMARK		BOROUGH: MANHATTAN	BLOCK/LOT: 42 / 36

ISSUED TO:

AM Property Holding Co.
352 7th Avenue
New York, NY 10001

Pursuant to Section 25-310 of the Administrative Code of the City of New York, the Landmarks Preservation Commission hereby approves certain alterations to the subject premises as proposed in your application completed on July 8, 2002.

The approved work consists of cleaning the exterior of the building, including the facade and roof, of debris related to the collapse of the World Trade Center, including, at the facade, removing all loose debris using, on the horizontal surfaces, non-metallic bristle brushes or scrapers, followed up by wet wiping and a low pressure water rinse of not more than 250 PSI, and, at the roof, collecting all loose debris, washing loose gravel, and wet wiping other surfaces, as described in specifications prepared the City of New York Department of Environmental Protection and submitted as components of this application

In reviewing this proposal, the Commission notes that the designation report for this Individual Landmark describes 90-94 Maiden Lane as a Second Empire style commercial building with a cast iron front facade added in 1870-71 as part of a renovation which united three early 19th century warehouses. The Commission also notes that there is some debris on the roof and facade

Staff has reviewed these specifications and finds that the work on the facade and roof will not detract from the architectural character of the building or streetscape; that it will not require the removal of any significant protected architectural material; and that it will not detract from the architectural character of the building or streetscape. Therefore, the Commission has no objection to the work proceeding at this time, or the issuance of permits by any other city agency.

A copy of this permit have been sent to the Department of Environmental Protection.

This permit is issued on the basis of the building and site conditions described in the application and disclosed during the review process. By accepting this permit, the applicant agrees to notify the Commission if the actual building or site conditions vary or if original or historic building fabric is discovered. The Commission reserves the right to amend or revoke this permit, upon written notice to the applicant, in the event that the actual building or site conditions are materially different from those described in the application or disclosed during the review process.

All approved drawings are marked approved by the Commission with a perforated seal indicating the date of approval. The work is limited to what is contained in the perforated documents.
