ND = None Detected, NA = Not analyzed. All results disclosed in this report relate only to the items tested. Identification is largely based on the visible characteristics as they appear under light microscopy. Presumptive culturing is required for confirmation. No reproduction of all or any portion of this report shall occur without written approval of Ambient Group, Inc. Unless otherwise directed by the client, Ambient Group will retain the samples listed in this report for five (5) days, after which time they may be disposed of in accordance with applicable regulations.
