Dear Mr. Radhakrishnan,

This letter is in response to your request for information concerning environmental hazard assessment and clean-up activity at 180 Maiden Lane, NY since the World Trade Center collapse.

An abatement clean up was performed utilizing the services of Abatement International Advatex Associates (AIAA) at the fresh air intake plenums . The Ambient Group performed monitoring and testing of the clean up. Clean-up operations and retesting was performed on September 16, 18, 19, 20 and 23, 2001.

Copies of all reports are attached for your review.

If you have any questions regarding these matters, please feel free to contact my office at (212) 440-7550.

Sincerely,

A handwritten signature in dark ink, appearing to read "Michael Versace", with a stylized flourish at the end.
