Dir Sir/Madam

With Regard to your letter of February 12, received on February 14, our building at 95 west Broadway received only the slightest of fine particulates, which we consider negligible and did not permit any bulk sampling. Subsequently after careful monitoring of the situation no residue is apparent on any exterior surface of our structure, to include roofs, parapits etc, to cause concern. If there is anything further we can do to assist you please contact us at 212-566-1900.
