WORLD TRADE CENTER REPORT

125 CEDAR STREET

On Thursday August 02, 2002, a walk through of several apartments at the above mentioned address was conducted with the purpose of tagging all items left behind by tenants which, they need to have cleaned. I along with Mr. Bob Fitzgerald of the EPA, and the specific tenants and/or owners of the apartments conducted a walk through of the following apartments: 7N, 3S, Penthouse, 12S, 5N and 5S, 6S, 9S, 10S and 11N. Apartment 8N was not look at, although the tenant [PII] attended the appoinment he did not have the keys to the apartment. He did give us a list of the items to be cleaned which is enclosed herewith. The Restaurant (Ground Floor), Basement, and Wireless Store on 120 Liberty Street, Mr. Fitzgerald and myself were accompanied by Mr. Joe Messino, the building manager. We looked at several storage rooms, including the safe room, elevator room, electrical panel room, eletrical closet, meter room in the basement, all these areas are to be cleaned. The total area to be cleaned in the basement is approximately 5,000 square feet.

Mr. [PII] of apartment 10S submitted his own specifications of what he wants cleaned and is attached herewith. Most of the tenants had already taken out most articles of value and what they wanted to keep, and had for the most part decided what was going to be cleaned and what needed to be discarded. The only tenant whom needed most of her furniture cleaned was Ms. [PII], and was very adamant about discarding anything except for the washer, dryer, and stove. She gave us specific instructions how she wanted her walls cleaned and some of her fine pieces of furniture. Also, she comanded for her sponge treated walls not to be wet wiped, and the writing on the top of the wall in her living room should not be washed off. Her report is attached herewith. Mr. Fitzgerald will continue with additional appointment scheduled for tomorrow.

Apartment 7N / Tenant - Jill Mohr (212)945-6437
Cell (917) 208-5921

Living Room	Kitchen	Studio	Dark Room	Office	Bedroom 1	Bedroom 2	Bedroom 3	Bedroom 4	Bathroom
