Ms. Joan Giummo
46 Ann Street, 4th Floor
New York, New York 11365-5107

Dear Ms. Giummo:

This in response to your correspondence regarding the cleaning activities at 46 Ann Street, Manhattan.

The New York City Department of Environmental Protection (NYCDEP) contacted building owners with regard to participating in the NYCDEP's Lower Manhattan Building Cleaning Program. Under this program, contractors retained by the NYCDEP have been cleaning exterior building surfaces affected by World Trade Center debris.

A licensed contractor under the direction and oversight of NYCDEP removed debris from the exterior surfaces of the above referenced site. Air monitoring was performed during our clean up activities.

The interior cleaning of residential units is part of the USEPA WTC Residential Dust Cleanup Program. Residents may request assistance by contacting the toll-free hotline at (877) 796-5471 or may register at the USEPA web site, www.epa.gov/wtc. Once registered, residents receive a number that they may use for follow-up. . If you have misplaced your assigned number, you may obtain it from the hotline. To follow-up on your request, please contact the USEPA.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Radhakrishnan".

New York, NY 10038

R. Radhakrishnan, P.E.,

Despite your office writing Cedar Management and despite my requesting EPA cleanup, no testing or professional, *inside* cleanup has been undertaken. I request that your office look into the matter as the residents of the building have been exposed to whatever is present in WTC dust and have been suffering respiratory illness since the events of 9/11/01.

A handwritten signature in black ink, appearing to read 'R. Radhakrishnan', with a large, stylized loop at the end.
