Re: **Final Clearance TEM Air Sample Results**

W&P File #: 1079.01.02

Dear Mr. Atteloney:

On June 23, 2002, a roofing-cleaning project was completed at the building located at 44, 46, & 48 Ann Street. Transmission Electron Microscopy air samples were collected at the completion of the abatement work. Final clearance air samples collected met the clearance criteria of less than 70 Structures per square millimeter set forth by the NYS Department of Labor Industrial Code Rule 56 and the NYC Department of Environmental Protection Title 15, Chapter 1 Asbestos Rules and Regulations, and this area can now be re-occupied.

Along with this correspondence, I have enclosed a copy of the final visual inspection checklist. If you have any questions or should you need additional information, please contact me at (212) 922-0077.

Sincerely, —

WARREN & PANZER ENGINEERS, P.C.
