Please be advised that I need to have vehicle # 44A-024 returned to the Bureau of Environmental Compliance. The recent reduction of fleet , the loss of vehicles that were in accidents and vehicles which currently are in disrepair and are beyond repair has impacted the Bureau's operational abilities and productivity. Which necessitates the return of the above vehicle ASAP.

If you have any questions please contact this office at 718-595-4679.

Thank you in advance for your continued cooperation and support.
