Subject: FW: revised epa/nyc indoor air approach for submittal to fema

Kathy, here is a version with revisions. Jessica, note the paragraph you wanted changes in on data was shortened a lot, though some of your changes are incorporated. HVAC is rewritten.

Subject: revised epa/nyc indoor air approach for submittal to fema

good morning, diana. i am attaching a revised version based upon our discussions yesterday. one item is added. on pg. 4, under "timing of the longer term actions" i've added "including peer review". we will need to do some level of peer review and it may impact timing, so i felt we should add it. we may need some fema fundng support for it also. call ASAP so we can send to fema in advance. thanks.

Jane,

*pls. make me 5 copies
 of the attached.*

*I would like Mike &
 Krish to review.*

*Note: on page 2 I have highlighted
 a typo.
 pls. e-mail to Diana.*

Thanks
