

Five-phase purifier rids air of contaminants—including viruses

The comprehensive **UV Air Purifier** employs all the technologies: HEPA, carbon, UV light and ionization. Phase 1 removes larger particulates. Phase 2 uses gas-absorbing carbon media to remove hydrocarbons, pesticides, VOCs, formaldehyde, solvents, chlorine and cleaning chemicals. Phase 3 strips air of odors and low-level gases with activated carbon. Phase 4 sends air through a HEPA filter that removes allergens, smoke particles and other pollutants. At the final phase, the air passes through UV light that kills bacteria and viruses (see detailed performance chart below). Infrared motion sensors control speed to reduce operating costs when rooms are unoccupied. A chemical sensor monitors air quality and alerts you to buildup of dangerous contaminants such as carbon monoxide. Indicator light signals filter change. 18"H x 21.5"W x 8"D. 23 lbs. USA.

UV Air Purifier 01-0137 \$599

UV Air Purifier Replacement Kit (includes all filters and UV replacement bulbs to last 1 year) 01-0138 \$135

Allow 4-6 weeks for delivery. Can be shipped to customers in the contiguous U.S. only. Cannot be shipped to P.O. boxes. No express delivery.

Powerful HEPA filtration and the best overall VOC removal available

In independent tests of the top 21 air cleaners, the **Healthmate HEPA Air Filter** was rated best overall. Combining an ultra long-life HEPA filter that you change only twice a decade, a top-grade carbon filter and a natural mineral zeolite filter, these units are most effective for serious contaminate removal, especially gaseous contaminants like formaldehyde and ammonia (see detailed performance chart below). Both the standard and junior units feature ultra-quiet motors that can operate 24 hours a day, three speeds and 360° intake. And the solid, welded-steel case and durable powder coating eliminate outgassing. Casters on standard model only. Choose black, white or sand. USA.

Healthmate HEPA Air Filter (23.5"H x 14.5"L x 14.5"W, 46 lbs.) 01-8005 \$399

Healthmate HEPA Junior (16.5"H x 11"L x 11"W, 23 lbs.) 01-0163 \$249

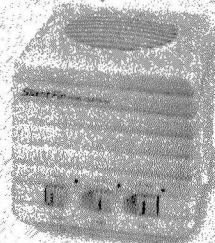

Allow 4-6 weeks for delivery. Can be shipped to customers in the contiguous U.S. only. Cannot be shipped to P.O. boxes. No express delivery.

Compact room-size air filter

Breathe impurity-free air at home, at the office or wherever you go, with the tiny-but-powerful **Desktop Air Filter**. A quiet, 2-speed fan draws air from 3 sides, sending it through a pre-filter, an activated-carbon filter an electrostatic media to remove pollen, dust, bacteria, pet dander, molds, smoke and odors. This little powerhouse cleans the air in a 9' x 12' room over 3 times per hour. Adjustable louvers direct flow and a separately controlled ion generator fills the room with healthy negative ions. 6.25"H x 6"L x 6"W. 4 lbs. China.

Desktop Air Filter 01-0107 \$65

Replacement Filter (replace every 3 months) 01-0106 \$12

Air Filters & Purifiers¹

Description	Room Size/ Air Exchange	Max. Power Usage	Size (H x W x D)	Weight (Lbs.)	Filter Type ²	Filters ³

¹Life expectancy of any filter media is dependent on the concentration of the contaminants to which the system is exposed. Chart is based on information provided by the manufacturer. Results may vary.

²UV=Ultraviolet Light—when exposed to UV, bacteria and viruses are killed on contact. AAPS=Advanced Air Purification System—patented air purification system creates a high-energy field that destroys airborne microorganisms. HEPA=High Efficiency Particulate Air—filter traps tiny airborne particles. Rated 99.97% removal at 0.3 microns in size. Ion-ionization—ions attract and attach themselves to airborne irritants, including smoke, dander and bacteria. The irritants are then drawn into the filter, or dropped to the ground, out of the air. Carbon—removes common household odors from cleaners, paints, solvents and other chemical substances. Zeolite—a volcanic material with absorptive properties, removes gases and odors. Foam—a low level filter that removes large particulate matter and extends the life of internal media. Electrostatic—attracts and removes small size particulate pollutants, providing a moderate level of particulate removal.

³B=Bacteria; V=Viruses; G=Gases; P=Pollen; D=Dander; M=Mold; F=Fungi; S=Smoke; VOC=VOC.

Virtually silent, energy efficient HEPA filtration

The award-winning design of the *Blueair HEPA Air Filters* offer more than a sleek, attractive look. In independent testing, *Blueair HEPA 501* outperformed 150 other air purifiers, delivering more purified air per minute than any other system of the same size.

The two new members of the Blueair family—the *402* and the *301*—match this superior performance in more compact sizes. All feature two-stage HEPA Silent technology for cleaner, healthier breathing (see detailed performance chart at right) with virtually silent operation. Plus, the recyclable polypropylene filters are water-resistant so they discourage bacteria build-up. Created with the Earth in mind, Blueair's components are designed to be easily dismantled and recycled at the end of its long life. Additionally, Blueair's precision engineering allows each unit to operate 24 hours consuming only a minimal amount of energy. So, you can breathe deep knowing you're saving money and the planet's resources. Rolling casters allow for easy moving. Sweden.

An air cleaner that's four times more effective than HEPA

The *Advanced Air Purification System (AAPS)* offers advanced protection against airborne contaminants, including both particles and harmful microorganisms. This patented air cleaner creates a high-energy field that increases filter performance, achieving 99.97% efficiency at 0.15 microns to trap up to 4 times more pollen, dust and allergens than HEPA filters of similar size. The high-energy field destroys such airborne microorganisms as viruses, bacteria, mold and fungi spores (see detailed performance chart below right). The units feature 3 speed operation, 360° air intake and an indicator light to signal filter change. 10000 series models measure 22"H x 12"W x 12"D. 20000 series models measure 24"H x 15"W x 15"D. USA.

Quiet HEPA filtration for small spaces

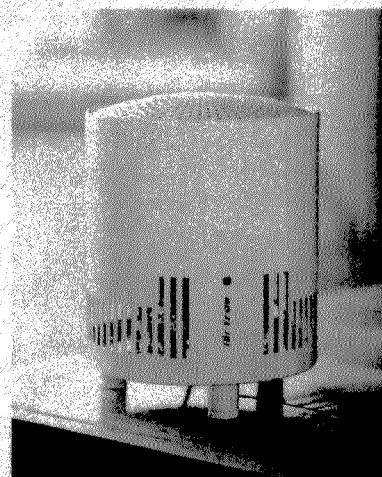

The *Roomaid HEPA Filter* offers the benefits of larger units in a compact design. Small enough to fit comfortably on a desk, night table or counter, the Roomaid makes so little noise it's ideal for bedrooms, nurseries or offices. Within the unobtrusive package is a powerful 3-stage filtration system (see removal chart at right). Two-speed operation. 7.5"H, 8.5" diameter. 5 lbs. Canada.

Roomaid HEPA Filter 01-0156 \$150

Replacement Filter (lasts up to 5 years) 01-0157 \$89

Roomaid Filter Kit (3 VOC filters, 2 pre-filters, each lasting 6–12 months) 01-0158 \$22

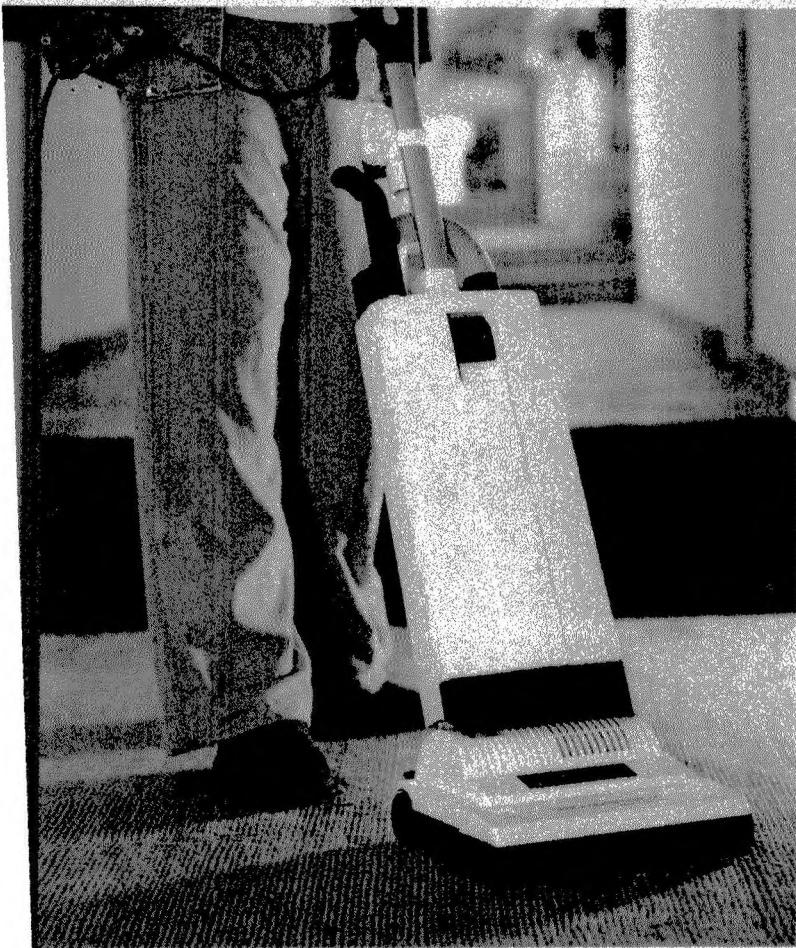

NEW! Silently cleanse indoor air with the very latest technology

Breathe thoroughly sanitized indoor air with a remarkable purifier that's utterly silent, energy efficient and maintenance-free. Replacing moving parts and filter maintenance with state-of-the-art technology, *Enviro Air Purifier* uses noiseless convection-driven air currents to draw air inside a patented ceramic core. There heat sterilization safely incinerates all

fungi, spores, bacteria, viruses, odors and dust mite particles it contains (see detailed performance chart at right). Purified air is then cooled and returned to the room without affecting ambient temperature or humidity. Operates silently and continuously on a mere 45 watts. 10"H x 8" diameter. 4 lbs. Portugal.

Enviro Air Purifier 01-0412 \$299

NEW! Upright HEPA vacuum effortlessly deep cleans floors

HEPA filtration combines with intelligent engineering to create quite possibly the most convenient, effective and energy-efficient vacuum cleaner you'll ever use. Powerful suction created by energy-saving design innovations allow the *Upright HEPA Vacuum* to deep clean floors, while the 3-stage HEPA filter system traps 99.97% of all particles down to 0.3 microns in size. Computer controlled auto-height adjustment lets you move from bare floors to thick carpets on the fly and the feather-light handle weight makes it effortless to push. With a 66-decibel noise output that ranks it as one of the quietest made. Other enhancements include sealable, auto-loading bags, a 40' extended-length cord, a 5.5" low clearance profile that slips easily under furniture, brush and bag indicator lights and a patented quick-release hose with convenient handle. Includes crevice and upholstery tools, dust brush, bag and micro and exhaust filters. 46"H x 12"W x 12"D. 15.8 lbs. Germany.

Upright HEPA Vacuum 06-0474 \$469

Service Kit (10 bags, 1 microfilter, 1 exhaust filter) 06-0475 \$45

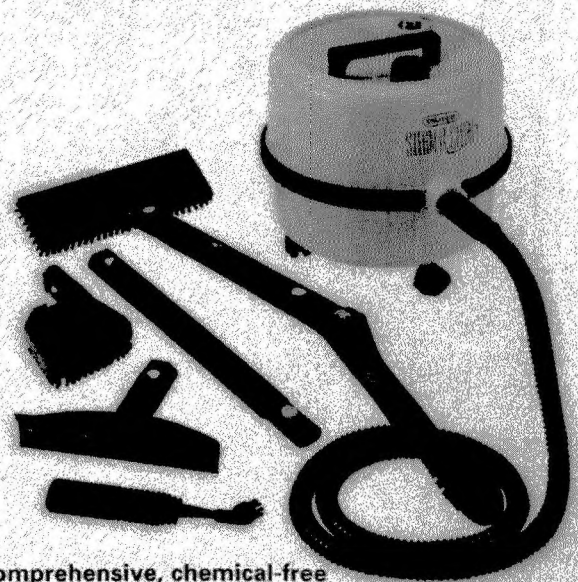

Special microfiber cloth cleans surfaces without chemicals

Microfiber Cleaning Cloths are woven from millions of tiny fibers that attract and capture dust, grime, chemical residues and most bacteria without any chemicals. Household cleaners can leave a residue that traps bacteria and dirt—actually leaving the surface more contaminated over time. With repeated use, microfiber cloths remove this bacteria-filled residue by 99%. Use

dusting or wet for tougher jobs. Includes 2 cloths (15"L x 18"W) for general use and a window cloth (16"L x 20"W) for streak-free cleaning. Machine washable. Sweden.

06-9308 \$28

Comprehensive, chemical-free cleaning system for the entire household

Professionally clean your home without chemical agents using an all-natural cleaning, sanitizing and deodorizing system. *Steam It Clean* heats water in excess of 200°F, emitting steam to loosen contaminants on every kind of surface. Provides 45 minutes of high-pressure (50 psi) steam per filling. Convenient handle, smooth-rolling casters and lightweight design make it easy to move about the house. Includes a carpet/floor brush, triangular corner brush, pointed nozzle, wiping cloth, window squeegee, 120° detailing accessory with a bristle brush insert and 2 extension tubes for high or hard-to-reach places. Comprehensive instructions included. Please note: This is not a vacuum cleaner or extractor. 14.5"H x 15.25"W x 15"D. 17 lbs. Italy.

Steam It Clean 06-0227 \$399

All-purpose mop dusts with reusable—not disposable—covers

Now you can dust, wash or scrub floors and walls with the same tool. Unlike traditional mop heads, Shine Mop's thick, long-life cotton terry covers come off for washing, so it's like having a new mop every time you clean. The swivel head makes cleaning under furniture a breeze, and the long handle reaches high walls and ceilings. Includes 2 covers. Mop head is 15"L x 8.5"W. The handle is 50" long. USA.

Shine Mop 06-8002 \$20

Extra Covers (3) 06-8003 \$15

Rejuvenate wood, linoleum and other floors with a petrochemical-free sealer

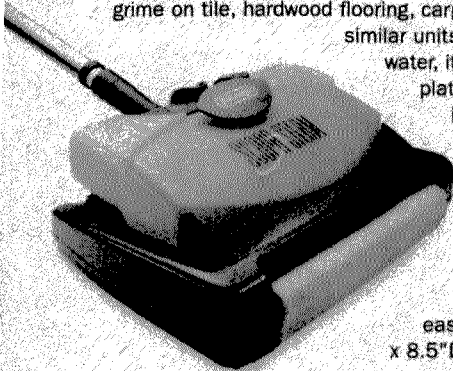

One application of this industrial strength, petrochemical-free formula fills in scratches and rejuvenates dull spots. *Floor Renew* dries to a brilliant finish that lasts for months on sealed wood, vinyl, linoleum, terrazzo, concrete, marble and slate floors. Protects from stains, heel marks and yellowing without build-up. The 32 oz. bottle covers 625 sq. ft. USA.

Floor Renew 06-0170 \$18

A steam mop that gets floors truly clean

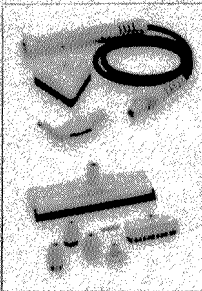

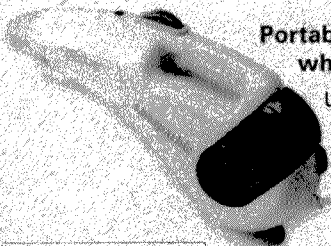

Eliminating dust, dust mites, germs, viruses and mold spores, the easy-to-handle *Steam Mop* is as simple to use as a standard mop, but it's much more effective. Fit the cleaning cloth onto the power head, fill the removable, 20 oz. reservoir at the sink, snap it into place, plug the steamer in and you're ready to clean up grease and grime on tile, hardwood flooring, carpeting and concrete. Unlike similar units, this steamer doesn't boil water, it drips it onto a super-heated plate, so it's ready to work virtually instantly, and it can be refilled the minute it's dry—no cooling-off period is required. Stop and go function operates with a shift in handle position and the telescoping handle makes your cleaning tasks easy on your back. 4.5"H x 12"W x 8.5"D. Italy.

Steamer Mop 01-0396 **\$199**
Replacement Cloth 01-0397 **\$12**

Portable handheld steamer goes where dirt and stains hide

Using fresh water to create a germ-killing vapor, this outstanding *Handheld Sterilizer Steamer* sanitizes anywhere and everywhere with four varied brush attachments, a jet nozzle and a window squeegee. It's an absolute necessity for people with environmental sensitivities. Working in any direction, it has useful auxiliary features like a detachable 14.5 oz. reservoir, a 12' heavy-gauge grounded cord and an anti-calcium filter. Steamer easily lifts grease and destroys pathogens using only the power of steam. Simply point, spray and wipe. 16.25"L x 4"W x 7"H; 4 lbs. 1500 watts. Italy.

Handheld Sterilizer Steamer 06-0439 **\$149**

Powerful wet-dry hand vac

Wet spills and dry spills are history with the super suction of this lightweight, *DirtTamer Portable Wet/Dry HEPA Vac*. Strong suction power outperforms other models. Cordless, it goes anywhere to do the dirty work. With its effective, three-stage HEPA filtration system, it captures 99.97% of allergy-causing dust, pollen, bacteria and other particles down to 0.3 microns in size. The mess disappears, but your air stays clean. An ideal

solution for boats and RVs. Includes three handy cleaning attachments: a 13" extendable crevice tool, a squeegee and an upholstery brush. All tools stow handily in the charger. 5"H x 18"L x 3"W. China.

Portable Wet/Dry HEPA Vac 06-0437 **\$60**

Advanced HEPA filtration in a vacuum cleaner

Vacuuming often exacerbates allergy symptoms because most vacuums simply pick up allergens and blow them back into the air where they remain suspended for hours. *Allervac* uses HEPA technology to trap those particles instead. Its 4-stage filtration system uses a 3-ply filter bag, a micro pre-filter, a HEPA filter and an exhaust filter to trap 99.99% of all particles down to 0.3 microns in size. The low-noise *Allervac* has a powerful 2-stage motor for deep cleaning, 6' hose, 35' cord, brush nozzle and carpet and crevice tools. Two 20" aluminum wands extend to reach 36". Includes 2 collection bags. Pre-filters last 3-4 months. 12.5"H x 10"W x 14.5"D. 14 lbs. Sweden.

Allervac HEPA Vacuum 01-0110 **\$499**
Replacement Bags (10) 01-0023 **\$29**
Replacement Pre-Filter 01-0022 **\$22**
Replacement Exhaust Filter 01-0071 **\$6**

Updated rotary sweeper cleans it better without electricity

Effectively cleaning floors and low-pile rugs without power, this *Rotary Sweeper* is a cleaning solution that exceeds sustainability standards. With a low profile, it easily reaches beneath furniture. Includes simple bottom-mount dustpan and shows exceptional design and craftsmanship. Lightweight and compact, it weighs only 5 pounds. 11" square x 37"H. Germany.

Rotary Sweeper 06-0382 **\$70**
