ATTN: R. MARGHERITA

Reimbursement for HEPAvac, Air Purifiers, and Air Conditioners (As of March 15, 2002)

1. Call FEMA to Register 1-800-621-3362
2. Tell them you want to be reimbursed for a HEPAvac, Air Purifier and/or Air Conditioner
3. FEMA will pass this information on to the New York State Individual & Family Grants (IFG) program
4. The IFG will send you some forms within 2 weeks.
5. Fill out the forms and send 2 other documents:
 - a. Letter from insurance company denying coverage (when you call FEMA they will ask if you have insurance)
 - b. Original receipt of the item purchased
6. The IFG will send you a check.

REMEMBER: You have to purchase the item first. FEMA & IFG will not provide funding to purchase these items. Red Cross and other agencies are no longer providing these either.

NOTE: Air Conditioners are reimbursable, but there is a limit to how much each household will be reimbursed (they won't say what this figure is).
