

INDOOR SAMPLING

Results of the sampling data submitted
by building owners to date

Number of Buildings	218
---------------------	-----

BULK

Bulk samples collected	1,999
------------------------	-------

Positive Bulk Samples (greater than 1% asbestos)	128
--	-----

AIR

Air Samples collected	111,768
-----------------------	---------

Phase Contrast Microscopy(PCM)	75,275
--------------------------------	--------

Positive PCM sample results (greater than 0.01f/cc)	780
---	-----

Transmission Electron Microscopy(TEM)	36,493
---------------------------------------	--------

Positive TEM sample results (greater than 70 s/mm ²)	108
--	-----

as of 3/4/2002
