AREAS FOR DISCUSSION

1. Arrangements with contractors to perform work at World Trade Center site
2. Compliance with NESHAP requirements
3. Treatment of asbestos containing material at the WTC site
4. Demolition of buildings at WTC site
5. Removal of WTC debris
6. Environmental monitoring and compliance
7. Exterior building cleaning
8. Interior building cleaning
9. EPA's role

minimizing asbestos airborne from site using NESHAP reqs
make sure nothing occurred > OEM => Health & Safety => Plan operational plan

① Drumcy Park vs. WTC ✓

Why is Drumcy Park different than WTC ✓
i.e. why did we go into DP and not WTC. ✓

② # of Bldg with more than 104 ✓
ACP 7

③ inspection of 300 only 1 ac ✓ get 1073

④ Back up for these issues

⑤ Get info to OIS re outdoor clean-up ✓
