RE: Riverpoint, Inc./World Trade Center Air Sampling Project

Dear Mr. Fawzy:

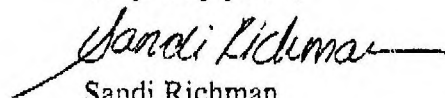

I write to provide an update regarding this Office's investigation of Riverpoint, Inc. As we discussed on December 20, 2001, I have confirmed that Marek Pawlik is employed by Riverpoint, Inc., as a field technician, and has collected air samples at the World Trade Center ("WTC") site as part of Riverpoint's project on behalf of the Department of Environmental Protection.

In addition, Mr. Pawlik is the owner and laboratory director of Renata Consulting Services, Inc. This company is the laboratory that Riverpoint, Inc., has retained to perform the PCM analysis of the air samples it collects at the WTC site. Mr. Pawlik is performing the PCM analysis of the air samples provided by Riverpoint, including analysis of some samples which he collected as a field technician.

I confirmed with the NYS Department of Health that Renata Consulting Services, Inc., is certified in New York State as a laboratory to conduct PCM analysis of air samples.

If you should have any questions, please contact the undersigned at (212) 442-0198.

Very truly yours,

A handwritten signature in cursive script, reading "Sandi Richman", with a horizontal line extending from the end of the signature.

Sandi Richman
