Hotline

"Reroute" DEP does not do indoor air testing. This is more likely a Health Department issue. Thanks.

suggest: I live in Gateway Plaza, a block from what use to be the World Trade Centers. There has been tests of the air down in BPC, but how about in the apartments and the furniture within them? I want to get my apartment tested for mercury, asbestos, etc. What would the best way to go about getting this done ASAP.
