To: Mr. Christopher O. Ward
Commissioner
Department of Environmental Protection
From: Delfin M. Sumcad

Subject: Lower Manhattan Indoor Air Cleaning

Dear Commissioner Ward:

With this covering letter is a copy of a letter with enclosed Brochure which apparently has been misplaced. We got back the return card from the Post Office which was stamped received on April 19, 2002 by your office.

We will appreciate hearing from you through your staff. We are confident our Air Filtration system can assist in cleaning indoor contaminated air in Lower Manhattan buildings.

Thank you for the attention.

Very truly yours,

Delfin M. Sumcad
District Manager

*Mr. Christopher O. Ward
Commissioner
Department of Environmental Protection
59-17 Junction Boulevard
Flushing, New York 11373*

*Subject: Lower Manhattan Indoor Air
Pollution Control*

Dear Commissioner Ward

We are aware of the massive work your Department will undertake in clean up operations for lower Manhattan. In this vein we can assist to minimize or control to a high degree indoor air contamination. Everything is premised on exterior and interior clean up of buildings.

Indoor cleaning will basically take out visible contaminants and probably some sub-micron pollutants. It is a fact that apartments and Offices can be recontaminated from the outside and within the buildings. Periodical recontamination through ventilation shafts and HVAC ductings, among others cannot be fully prevented.

Keeping clean indoor and odor free air is the design of our Air Filtration Systems (Carico). We have two Models, one with 9 stages and the other with 6 stages to ensure proper cleansing of air in a given area. Enclosed is a brochure for your perusal.

We will appreciate discussing matters with you personally to clarify/answer questions. May we invite you to our Bloomfield Office in New Jersey.

Thank you for the attention. May we hear from you soon.

Very truly yours,

*Delfin M. Sumcad
District Manager*
