Air Emissions Very Bad

① 10 million contract for Exterior clean-ups

A) Facade, Roofs + Scaffolding

B) air monitoring contract for above
pre-qualified pool / SCA ODC

② Current air monitoring sites for 20 locations downtown up April 4th (cannot be Extended) if we want to keep need to declare emergency

① For cleanup Irish has Bids^{documents} that have been approved by Stu units for cleanup + monitoring

B) Irish has bids documents for air monitoring for cleanup

C) Virginia is working up Emergency declaration language that Dennis needs to send to Stu to start process.

D) Ferna still asking a couple questions that Virginia knows about { Facade cleanup for? / Continued Bldg }

② Current air monitoring sites need to develop bid sheets probably can use something Irish unit or Leonards unit already has.

Ready by Outreach Cabinet List of Bldg Owners

12/4/01

1) We are attending a briefing shared by EPA at 3 World Financial Center this am involving the contractors & DDC dust suppression etc.

2) Tests around Stuyvesant HS have been fine with respect to Asbestos
 Air samples were fine
 Tests by EPA were relegated to PIER 25

• ATSDR has been doing testing in residences ??
 60 residences tested 3 found issues that are "research project"
 ATSDR questionable.

• DEM was considering further shrinking the parameter at ground zero. I told them we would request to DOH considering whether need to address dust suppression and other issues related to the construction process

* Friday Evening & Saturday DOH didn't give the approval to shrink the perimeter
