E-

If material was deleted beforehand in the
 National course - we need to show that
 - no recycling tapes every X mo.

BC-

Hansen - Oracle database

BAU - ^{Air/}Naval/Hazmat was on it as of 9/11

BEC
 Used the CR module

BWSE
 was first + work order module

BC- Everything in Hansen is still live -
 we haven't archived anything

Clayton system - RTM database
 (d base)

MG - In asbestos

ACP 5 + ACP 7 - Standalone database
 (d base system)

BC - Network is NT 2000

Incremental back up + Run a full
 once a week

⇒ Low wants to stop recycling tapes -
buy new tapes

⇒ Also wants to salvage hard drives
when machines are replaced

BC & Cowanage - BOST has a GIS system
with water + sewer maps

FS - Not likely have skeleton photo on it -
water + sewer shut-downs on 9/11

JC - Need to preserve first

BC - DEP web site run by Public Affairs
Thinks server is at DOT
Don't have an internet yet

JC - need to see DOT met for
recycle or destroy

BAV - David Webster is there too

JC - We do need to add DOT to our
list of "big agencies" to see

Don - we also do see if DEP web
pages (2) mentioned a
back-up

BC-
