SCOPE B WORK PROCEDURE

The scope of work consists of cleaning the interior of Apartment 2 at 132 Duane Street, New York, New York. There is concern regarding dust/debris located behind plastic sheeting installed over some of the windows in the apartment. The following modified Scope B cleaning procedures shall be utilized:

- A. We shall provide disposable protective clothing and respiratory protective equipment for the cleaning personnel.
- B. We shall construct a two (2) stage remote Personal Decontamination Facility at a location to be determined based upon project conditions. The stairwell entrance to the apartment shall be utilized to enter/exit the apartment.
- C. We shall install framing and plastic sheeting to effectively isolate the plastic covered windows from the surrounding apartment areas. HEPA equipped air filtration equipment shall be utilized within the framed area.
- D. The plastic sheeting installed over the windows shall be removed after the framing and plastic has been installed. The plastic sheeting on the windows shall be wet-wiped and HEPA vacuumed prior to removal. The surfaces behind the plastic sheeting and the windows shall be cleaned utilizing HEPA vacuuming and wet wiping techniques.
- E. The list of items to be discarded, as prepared by the apartment owner, shall be removed from the premises.
- F. The apartment shall be cleaned after scope of work for affected windows is completed.
