Milo G,

As you can see the folks
and representatives of 125 Cedar
are circulating the "scope of work".

The way to handle this an
avoid criticism is using the
Bill Clinton technique of what does
the word "I" mean.

We will say that this "scope of
work" was a work in progress and
not nearly what a "scope of work"
to potential bidders will be ~~like~~ ^{like}.

We can use the comments they have
made to satisfy these people and
come up with a final "scope of work"
satisfactory to all and ready for bid.

I never knew you had a bit
of Bubba in you.

Bob
