Importance: High

Bob,

Can you please take whatever steps are necessary to make sure that ALL 105 Duane residences that have requested cleaning are done by March 7th.

Please advise.

Subject: RE: Linda Burdick,

Hey Cindy,

I know Carol was having surgery or something, could you have someone investigate this. There are an awful lot of BEs and ERs on the list for noone to still be receiving assistance. The NPSC has a "Congressional" staff, have them do it. There's too much there for you alone. Please let Mark Harper know ASAP. Thanks
 Dave

Dave,

Regarding Representative Nadler's request that we identify how many residents of 105 Duane Street are still receiving assistance, we discussed at yesterday's FRO meeting that the TX NPSC indicated there were no applicants at 105 Duane Street still receiving assistance, however Bryan's search of several of our inquiries indicated otherwise. Nadler's office contacted us again today specifically regarding [REDACTED] PII and indicated the date for EPA cleaning her apartment is March 26 (her rental assistance runs out March 1).

The importance of responding to the more general request (how many are still receiving assistance) is now elevated given Nadler's request for a 2/21/03 meeting with Brad.

Let me know if I need to do anything to help facilitate.

Thanks,
 Mark

Dave,
 CLO has handled at least 7 inquiries on individuals from that address and two offices have expressed broader concerns about that building. The consensus of the two offices (Representative Nadler and Assembly Speaker Silver) is that the building will not be habitable by March 10 and they are seeking an extension of the benefits period for rental assistance for these individuals.

I spoke to Brad on Monday who indicated all of the residents who requested EPA cleanup at 105 Duane would be expedited, he also stressed that there was no WTC damage at that address.

In addition, you assisted us in getting a TX NPSC report run on this address because Representative Nadler's office asked that we identify how many in the building are still receiving FEMA assistance. The string of e-mails included a comment from Cindy Howell that none of the 79 applicants are receiving assistance at this time, however, CLO Bryan Pojanowski indicated that he checked 20% of the 79 applicants and most of them were still receiving FEMA assistance. I have attached a spreadsheet he prepared highlighting those he found to be still receiving assistance and copied him on this e-mail.

I think this is a potentially politically sensitive issue and I'm sure Mac is following this from a Public Affairs perspective as well. Perhaps this can be a point of discussion for tomorrow mornings FRO meeting so we can all get direction from Brad.

Thanks,
 Mark

Are we still watching this address? Is EPA going there? Soon? Thanks

Hey There,

This is one of the 105 Duane St. applicants. When is EPA supposed to clean that building. What is the latest regarding their assistance? This app has received her 18 months ER.

Thanks,
 Cindy

Cindy,

This applicant has reached her 18 months of rental assistance (ER). She states that she still can not afford her rent. That the EPA has not cleaned her home to date. Can you check and see if her home has been cleaned, if not when will it be cleaned?

DR 1391

RI#91-0460435

PII

Thank you,
Cindy Monk
