Subject: 125 Cedar Street & Press

Chris,

I have spoken to Charlie this morning concerning 125 Cedar Street. Charlie had spoken to Mike about doing a story with NBC. I told Charlie this is not a good idea. The owner and tenants are jockeying for position on a host of issues making a camera crew in that environment unpredictable and dangerous.

PII the head of the tenants association, has a call into Kirk Johnson to speak positively about our efforts. I also told Charlie to circle Speaker Silver into the mix so he can acknowledge the role he played in achieving positive results.

The print media is the way to go.

Please let me know if you concur.

Bob

Importance: High

Kathy,

Can you confirm EPA participation in the NYC/EPA/FEMA outreach meeting tomorrow? If the EPA wants to be involved in crafting the message, I recommend that you and your key staff come to the meeting. If you choose not to attend, I will expect that you will not undertake any further outreach independent of this joint NYC/Federal effort.

Please advise.

Brad,

Good morning! hope this finds you well. I am back from my trip and looking forward to moving our favorite issue along... One small hitch has arisen, however - Kathy Callahan's office called Laurie Tamis from our office to say that the EPA would not be attending. I am surprised to say the least, since it was my understanding that you had asked both the City and EPA to work together on this.

Hope ail is well,
 Laurel
