Laurie. Works for me. You are a great coordinator.
We are bringing this home. Say hi! to Laurel.

Hello Bob,

I appreciate the time you and your team took to speak with me about 125 Cedar Street. After our conversation, I met with Pat Moore (at 125 Cedar!) and spoke with Speaker Silver's office. As you'll see from the attached article, they both thought DEP did a fantastic job.

I also was able to get some good "before and after" photos, so no need to try to track them down for me.

Please let me know if you have any changes/comments to the article. We're hoping to post it early next week.

It's been a pleasure working on this article and spreading positive news.

Thanks,
Esther Buterman

Esther,. I look forward to reviewing. the article. It's my pleasure to work with the team at Edelman. I think we made significant progress at our meeting yesterday with EPA. We will continue to move this along to conclusion.
 Bob
