Laurie,

I think we should keep the group in its present format. We have recently received favorable data that has been publicized to support the positions we have been speaking about. It is my opinion that there is not a need to involve the state at this juncture. Look forward to seeing you January 10th.

Happy New Year to you all.

Regards,

Bob

I know we've discussed a few times including someone from the state in our air quality meetings - what do you think about doing that? and who should we include?

Brad,

Have you had any success in setting up the meeting with EPA for later next week? Staff is working on getting an accurate estimate of costs related to the project for your discussion with D/M Doctoroff. We need another week to refine our numbers but feel confident our underrun should be to your liking. Please advise.

Regards,

Bob

Bob,

Working it. I need to get Joe P.'s schedule locked in first.

Subject: Susan Kupferman

Chris,. As requested, I put a call into Susan this morning. She was at a meeting and as of this writing hasn't returned my call. As you know I will not be in the next couple of days. On an unrelated issue, EPA'S project leader has requested and been granted reassignment away from our Lower Manhattan effort. Obviously, he could not take the heat in the kitchen and be bound by a project that has a real completion date with eternal oversight. We will countinue to keep the heat on.

Subject: EPA MEETING

Brad [REDACTED] PII [REDACTED] the past two days but have been kept abreast of activities and developments regarding EPA. It's imperative that we plug Joe in and meet with these folks now. We have given them a chance, it's now time to present political reality. I will not have them hold the City or you as Federal partners hostage to obvious incompetence. The game is over it's now time for them to go. As much as we have tried they can not close it out without creating more hardship.

Regards,. Bob

Hi Laurie,,
home. We have done our part, It's time for EPA to realize we have a convention coming to town. Pls give my regards to
Laurel and have her give me a call.

I will give you a call give you a call. We will bring this project
Regards,,
Bob

Chris,. It's time for me to bring this to an end without compromising you with Jane. They are beyond description. I need to talk to you on a totally unrelated non-work issue that I think you will find interesting. I have one more PII to address next tuesday and would like to have that lunch or dinner to discuss some interesting situations. As you well know, you have my complete support and I become more impressed with your ability to read, absorb and implement. That being said, I have a few observations that may be helpful. It's great to play a role in your administration.

Sincerely,. Bob

Matt,. I am out of the office but have read your e-mail. As previously discussed, it is imperative that we have EPA'S letter of support as we did the last time. It's essential for the Mayor to have complete support. Talk to you later.

Chris,

As you can see, the Deputy Chancellor is making a request for approval concerning several more schools at Lower Manhattan. As discussed, it is my understanding FEMA will not give them authorization to procede without my sign off. I had conversations with Haeda, OMB, and the Law Department on this subject. I clearly stated to all that I am willing to do whatever the Administration wants with respect to these issues. Please let me know your feelings.

PS - I have articulated our support with respect to the Deputy Chancellor's request which is consistent with what we have done in the past.

Thanks, Bob

EPA has agreed to write a letter based on the DOH letter I sent you and their earlier letter which stated that they had consulted with us and supported carpet removal. I sent the DOH letter to EPA this morning and they should be drafting something today. So if you could begin drafting as well, we could be ready to send to FEMA in the next day or two.
 Thanks.
