Importance: High

Brad- I will push our friends at EPA. When is your meeting with Nadler?(I thought you kept good company). Also, Walter suggested that the D/M doesn't want the DOE carpet removal initiative funded. I suggest that he communicates that to DOH. As discussed, they have written a strong letter of support (Kelly McKiney).

Matt,

Have you received the final letter from EPA?

Bob

Per our various emails and conversations, I am attaching both the EPA and the NYC Department of Health's letters re carpet removal at Ground Zero schools to be used for FEMA reimbursement. As we discussed, FEMA has requested a similar letter from you. Your letter simply needs to restate that you have been consulting with us and that you recommended the carpet removal as part of our continued clean-up letters. If you have any questions, please call me at 374-0214. I will follow-up with you later today. FEMA would like us to submit our materials in the next few days. Thanks again for your continued help.

Brad- As discussed, we will begin monitoring on 3/5, with full clean-up to commence next Friday 3/7. I gave them a choice to use it or lose it. We are pushing EPA and the contractor's with respect to cancellations. We are making significant progress.

Subject: Carpet Removal from schools - Department of Education

As previously discussed, the Department of Education has requested a letter from me supporting the carpet removal from schools affected by the WTC incident.

Originally, I had Krish send DOE a letter stating that we were not opposed to the DOH's strong recommendation of support as well as USEPA's lukewarm endorsement.

Matt Onk, Deputy Chancellor, called me again this morning and asked that I send a letter of support under my name so they could submit this request to FEMA. He said that FEMA wants my sign-off to consider reimbursement.

While its great that FEMA recognizes our ability to get things done in a cost-effective manner, I am being put in a situation as keeper of the gate involving a project outside our area of responsibility. In essence, the letter will be used as a means of satisfaction to FEMA because it has my name affixed to it purely from a reimbursement perspective. I know this has been discussed at City Hall, Law Department and OMB. What do you want me to do??
