Subject: xx Asbestos monitoring

Asbestos monitoring at outdoor locations - I heard you mention that the contract for this works has an end date of early April. Actually, I don't know if this is the contract for the 4 school sites or for the 20 sites. Anyway, one of the topics of the continuing air issues conference call is "plans to change monitoring efforts". Should we report that we are considering reducing?; eliminating? changing our asbestos effort? The call is on Tuesday. Thanks.
