Whatever happened with the letter/s for FEMA? Did they just accept the one letter from the Commissioner?

Laurel,

We are in the process of finalizing our letters for reimbursement from FEMA. They are asking for some numbers from an economic development perspective to support our request.

Would you please speak with DEP Counsel, Mark Hoffer, so we might move this forward. Mark is expecting your call at (718) 595-6528.

Thanks,

Bob A.

PS: I received a telephone call from John Wong, President of the Asian American Development Center (a friend), asking if I would attend a meeting at 150 Lafayette this afternoon between 3 p.m. – 5 p.m. I said you would be in attendance. If you think I can be helpful, please advise. I would come from my EPA meeting slated for 1:30 p.m. today.

What is the status of the request from NYSDOH that we help arrange that this space receive cleaning? Ron Tramantano, who has been very helpful to the agency in the past, and continues to be, has asked that we assist.
