Importance: High

Bob,

Mike just suggested that we add EPA to the first paragraph where they mention the collaborative efforts of the NYCDEP, building tenants and owner and Assemblyman Silver. Even if you put it after Silver.

Also, the NY Post has picked up the item about out inspector. Mike and Gerry are working with Charlie on it.

Jane

Hello Bob,
I appreciate the time you and your team took to speak with me about 125 Cedar Street. After our conversation, I met with [REDACTED] (at 125 Cedar!) and spoke with Speaker Silver's office. As you'll see from the attached article, they both thought DEP did a fantastic job.

I also was able to get some good "before and after" photos, so no need to try to track them down for me.

Please let me know if you have any changes/comments to the article. We're hoping to post it early next week.

It's been a pleasure working on this article and spreading positive news.

Thanks,
Esther Buterman
