diana, received this from brad gair. doesn't sound to me like they want to meet...and doesn't sound like we have movement on any of the pending activities yet....will call you later to discuss. but i think the meeting w. FEMA for tomorrow is off; it wouldn't seem to be useful. also, i don't think there is a need for a monday EPA indoor air task force meeting either. stay tuned. kc

Kathy,

We have transmitted the most recent proposal for cleaning and testing residential units to FEMA HQ and are awaiting a response. I have checked this morning and it is still under review. The Interagency Agreement is currently linked up with this proposal in the HQ evaluation process. We have identified this as a priority; however, we at this point, we have no new information to provide. We will be in touch as soon as we receive an answer.

Thank you for your continued cooperation.

Brad Gair
