have the COs been prepared? Frnak and i would like to see them after they've been completed. By the way, we really can't do anything with them until the contracts are registered. Nonetheless, make sure that the money is n the BC/object so that you can do the A of A.

The CO's are being drafted. I will send you and Frank copies asap for review. We won't submit until contracts are registered. Adequate funding is available in the BC/obj.
