Subject: Celaning SOP & Bldg List

Good Morning Mike.

Looks like we lost the battle again with EPA on the porous surfaces asbestos sampling. I don't think they understand the door they are opening by doing this. But they may need to learn the hard way.

Can I get a copy of the SOP for the indoor cleaning? Also, can you make available to us the 17 bldg list? We will keep both absolutely confidential. If you have any questions please call me at 518-402-7511.
