Subject: Exterior cleaning Insurance

How are we going to pay the insurance? the CO should include the payment terms. Normally, insurance costs are either within unit prices or the lump sum amount and are paid as the contract progresses. Any ideas?

Subject: Contractors looking for work

Hi Mike:

We are getting many contractor's looking to do the cleanup work. Should we forward them to DEP, since you will choose the contractors? If so, to whom should I send them?

Mary

Subject: Exterior Insurance Increase

After having spoken with MOC, LAW, and COMPT, I am happy to report that we do not need to process a change order to increase the insurance requirement for the exterior clean-up contracts. We will take care of it within the context of the original contract and Carol Fenves and Virginia Smyth are working together to accomplish that. We have just saved a lot of paperwork, time, energy, and oversight aggravation.
