Subject: RE:disposal issue

sorry it took a few days to get back to you. 2 (B and D) of the 4 quads are disposing already, the other 2 (A and C) were waiting until they had enough material to economically dispose of it. from our discussions with the contractors we do not anticipate that they will experience any problems. (we sent a letter to the landfill and the environmental agency in west virginia explaining our program. we know for certain that quad A will be using this landfill.) i will keep you apprised if i hear anything different. thanks

 AM

Dore,

Can you update me on the status of the disposal issue that was of concern to the contractor a few weeks ago. I thought I heard that it was resolved, but this was not oficial.

Thanks,

Mike

Krish - please find attached the revised checklist Covino put together based on the conclusions we reached at the meeting earlier this week. covino is also putting together a draft of the instructions to the

evaluators. please review this as soon as you can and let me know if you have any comments. you may want to share it with your contractor who was at the meeting. thanks
