Subject: FOIL Request - NY Envl Law & Justice Project

I have reviewed the Asbestos Control Program files related to the WTC cleanups. In reviewing sample results submitted by building owners at DEP's request, I was able to locate only three letters asserting that the results were exempt from public review under FOIL:

- The NY Stock Exchange, for results of sampling at 11 Wall Street;
- Bovis Lend Lease, for results pertaining to the Millenium Hilton (41-51 Church Street, 172-184 Fulton Street)
- Capital Properties, for results of sampling at 111 Broadway, 2-10 Thames Street, 91-95 Trinity Place, and 115 Broadway.

It should also be noted that many of the labs who performed sampling and issued reports use boilerplate language along the lines of "this report was prepared for the sole use of our client and may not be used by anyone else without our written consent."

I exchanged messages with Mr. Kupferman on Monday 12/30 and have not heard from him since. I am assuming that once we pull the results for the buildings listed above we can call Kupferman and invite them in to inspect the remaining submissions. Please advise.

Subject: RE: Copies of Change Orders/Contractor Correspondence

I received the final versions of Change Order 1 signed by three of the cleaning contractors this week. The fourth has committed to having it hand delivered by noon today. I will fax over all four copies this afternoon.

Subject: Copies of Change Orders/Contractor Correspondence

Happy New Year Virginia,

As a follow-up to my phone message, it is becoming critical to have copies of all the change orders and any follow-up correspondence the City may have sent to the contractors pertaining to all the issues mentioned in Kathy Callahan's letter to Bob Avaltroni dated November 8, 2002 and pricing chart that was sent from Dore LaPosta to Mike Gilsenan on 12/04/02. My cause for concern is that one of the contractors showed Ray Basso pricing numbers that he planned to use that were different from the chart. By not having these documents it makes it difficult to respond to questions that the contractors raise to us and essential to process the vouchers. I appreciate your help with this, please give me a call. Thanks!

Another question: Based on these change orders can these contractors submit supplemental vouchers for payment? JBH has asked this question. If the answer is yes, did you notify the contractors that they are allowed to do this? Thanks!

On Tuesday 24th December, 2002 I conducted an inspection along with Supervisor Rasti of PAL (Asbestos Contractor) of 130 Liberty St. At this time WTC debris was still being cleaned up on various floors of the north half of the building. The 26, 24, 25, 23, 22, 21, 20 floors have been finished. Workers were about finished for the day as no work was scheduled for the Christmas Holiday.

In reference to the Mold problem at the building, Rasti informed me that another crew from PAL had completely removed all the mold from the entire building. He was not sure of what method was used. However, he said he was sure that all mold from the basement to the top floor was gone.
