Penny,

That would be great if the silica data will be here this week. The management here is a bit reluctant to send out an all clear letter without seeing the silica data. But it should not take long to look at the data once it is complete and add a quick paragraph about the silica in the letter. If you could please forward the silica results when they are available, I will do my best to get the letter completed and sent out.

Thanks,
 Chuck

 PM

Hopefully tomorrow according to JLC. I would add another two days just in case.

Street

Penny,

I have been asked to find out when the silica
results for
114 Liberty
Street may be available for review. I thought
you had said
in about two
weeks, but I wanted to double-check.

Thanks,

Chuck
