FEMA needs some answers in response to the questions below. I know the building scopes are due soon and our past estimates were \$1,000,000 each, but I will provide some more details for them if available.

 Subject: Stuff

Hi Virginia,

I know you all are very busy over there these days, so instead of pestering you with another phone call, here's a friendly email of the stuff I wanted to check on.

1. Potential HVAC Cleaning Costs - FEMA management has asked me to get the answers to these questions before submitting the PW for their review.

- * How many buildings in the affected area have central HVAC systems?
- * How much, on average, does it cost to clean a central HVAC system?

2. Uncleaned debris-laden building costs - I will need to write up a PW for this before August 31, 2002. In order to do this, we need:

- * Finalized list of buildings and their addresses
- * Are these commercial or residential buildings?
- * Scope of work for the cleaning, monitoring, etc. of each of these buildings
- * Cost estimate for the cleaning, monitoring, etc. of each of these buildings

Thank you very much!

Take care,
 Emily

Subject: SEMO indemnification letter

Hi Virginia,

FEMA Management wanted me to ask DEP about the letter that the City will provide to SEMO to indemnify the State from all liability related to the Indoor Cleaning and Monitoring Program. Apparently, FEMA cannot obligate the PW funds until SEMO receives that letter. Do you have any information about the status of that letter?

Thank you,

Emily
