Subject: Sample Flow Rate for 125 Cedar Street

Importance: High

Please be advised that ATC has been instructed to run all samples collected during clean up activities at 4 lpm. This will reduce the quantity of samples they are collecting each day. There is no reason for their sample flow rate to be 10 lpm other than driving up the cost of sample analysis.

Subject: EPA to ask FEMA to extend reimbursement for AC's

FYI-

at the last EPA IAWG meeting, Kathy C indicated that they were going to ask FEMA to extend the period beyond 30 Sept in which they will reimburse people for replacement of dusty air conditioners. This is important for when the downtown cleaning contractors go into units where they find a dirty A/C.

Don't know if she approached FEMA and what was the result.

See y'all in Oct.

Ciao,

Lee

Subject: Exterior Clean up Program

Based on the discussions we had the other day, I am providing additional information.

Number of buildings inspected 1072 (This does not include multiple inspections conducted on a building)

Ours staff had contacted the following building owners / managers who are willing to talk about our exterior clean up program. Please contact them.

Richard Rubel of Cedar Management (212) 732-7653
(We cleaned a number of their buildings (123 Fulton, 121 Fulton, 116 Fulton, 25 Maiden Lane). 25 Maiden Lane is active now.)

Guy Plush (212) 285-4232
We cleaned a number of their buildings as well. I don't have a list of the addresses though.

St. Peter's Church -16 Barclay Street
Mr. Williams Cell (917) 875-8461

75 Murray Street
Mr. April (212) 766-2711

If you need additional information, please let me know. Thanks

Krish, (718) 595-3718

Subject: Directive 1

This is a reminder that the questionnaire for Directive 1 was due on September 24 2001. Today we have not received your response.

Please have the questionnaire sent to my office no later then September 28, 2001.

Thanking you in advance for your cooperation.

Subject: FEMA MODS

Dave,

Per your request, I have reduced the interior cleaning mod by \$25,000 to \$65,256,500, this should eliminate OMB's concerns. Mod MCJPT82 has been voided and the new mod number is MCJPT82A. What is the status of the exterior cleaning mod for FY2003 Mod number MCJPT83.
