Subject: FEMA

This is a follow up to my email of April 10, 2002. FEMA was in Lefrak on April 22, 2002 inquiring about the difference of air monitoring at Stuyvesant High School by DEP and the Board of Education.

Please have this information to my by April 26, 2002.

Subject: ATSDR Asbestsos Results

Mike

The last time we spoke you indicated DEP was going back to test Residence 2 at Building 11. Any results yet?

Vin

	Building	PLM [%]	TEM [%]	PCM [f/cc]	TEM [f/cc]
11	Outside	Not Sampled	Not Sampled	Not Sampled	Not Sampled
11	Common	ND	ND	<.001	NA
11	Res 1	ND	<1	<.001	NA
11	Res 2	ND	1.5	<.001	NA
11	Common X	Not Sampled	Not Sampled	Not Sampled	<.001 NA

Building 11 Notes: Residence 2 was unoccupied when tested and referred to DEP for reinspection. DEP was denied access to reinspect.

According to the landlord the apartment was cleaned prior to reoccupancy.

 I think Canal is okay, but if anyone has other suggestions. We thought about commercial, but felt it opened the door on other programs and why aren't they commercial, so deferred it until we decide to do some commercial? The real question is probably what FEMA asked; just complaint driven or a proactive survey.

diana, reflects a few edits and refinements i've made. also a couple of questions came to mind...canal st. doesn't go completely east to west, do we need further geographic definition and if so what....not an immediate problem, but need to resolve. also, on the HVAC systems- just residential?

(See attached file: WTCfemaRevise42102.wpd)

talk to you as soon as you can....thanks, kc

Subject: ATSDR Asbestos Data

Per our discussion yesterday, I provided DOITT with a copy of the ATSDR asbestos spreadsheet marked DRAFT 040302.

DOITT will include this data, along with asbestos monitoring results provided by other agencies, in a prototype GIS mapping system that will be available online for agency review/comment by the end of this week.

Note that all data presented in the initial runs by DOITT will be marked confidential and restricted to agency reviews. At our next Buildings-Parks Committee meeting on Tuesday April 30 (11:30 AM, Manhattan Room) Lai-Sun will provide legal guidance on what we can and cannot disclose in a public access site.

Subject: Summary of Calls Received 4/23/02

Hello everyone,

Below is a summary of the calls that were received by hotline operators Tuesday April 23, 2002.

We received a total of **15** calls during operating hours:

- 3 were about cleaning
- 4 were about the outdoor environment
- 1 was a health concern/DOH referral
- 4 were questions or requests for indoor air testing
- 2 were for the old WTC hotline
- 1 was an "other" question

We received **5** voicemails overnight. 3 were hang-ups or inaudible, 1 was a question from a WTC victim for information on seeing Ground Zero, and 1 was a referral from Sheldon Silver's office from a woman with health complaints.

As of 11:55 AM today (Weds, April 24) we have received 3 calls.

Subject: Use of George Anakhu for non HazMat analytical duties

Leonard:

I have been informed that George Anakhu has been being used to perform asbestos related duties for the renewed asbestos contract. In an email dated 4/10/02 you were advised not to utilize a HazMat analytical chemist for managing your downtown responsibilities.

Once again, George Anakhu is not to be used for the asbestos contract duties. He is required to perform his analytical functions for the hazmat lab. Please let me know if you have any questions regarding this matter. Kim
