Subject: AIR MONITORING CONTRACT

Importance: High

I received a call this morning at approximately 11:30am from Mike Nolan (Project Manager, Warren and Panzer) who stated that one of his air Techs (Edmond Dibra) was harrassed by an individual who identified herself as "Dr. Kate Burnstein." This individual made noncomplimentary statements concerning the type of air sampling being done.

According to Mr. Nolan this was the same individual who approached his Techs a couple of weeks ago and made disparaging remarks about the type of sampling being done and said other things about DEP. These remarks were then claimed to have been made by his Techs.

I told Mr. Nolan that I would relay this information to you so in the event of similar compliants made to you such as the one a few weeks ago, you would handle it appropriately.

Subject: bldg info from COSH

Has COSH forwarded their bldg data yet for inclusion in the database?
DEP is interested in seeing the data as well, in part to see if the COSH
list has any bldgs in Bklyn. If there are bldgs in Bklyn, were they
inspected for residual external debris, and found to be free of residual
debris?

Subject: Asbestos Monitoring contract for lower Manahattan

Leonard:

This Division has not been notified by the Bureau as to what your responsibilities are involving the asbestos air monitoring contract in lower Manhattan. I understand that you have accepted the obligation to perform functions under the direction of Mike and are also working in conjunction with the asbestos unit in this matter.

This arrangement was made between you and Mike without notice to or involvement of this Division. This Division also has no knowledge of the functions you are performing or the amount of time your are expending on this project. Be advised that it is top priority that the Division maintains its hazmat emergency laboratory preparedness at all times. This includes maintaining 2 hazmat chemists devoted to the analytical lab duties without interruption and an asbestos analyst present at all times during normal office hours. Please let me know if you have any questions regarding this matter. Kim
