Subject: Re: bldg info from COSH

DOITT received DCAS/COSH data and I understand Sylvia Pryce is forwarding it to Mike at DEP as we speak.

Mike - Sylvia asked me to remind you to send her the list of buildings to be cleaned; would you copy Jim and I also?

Thanks

Has COSH forwarded their bldg data yet for inclusion in the database?
DEP is interested in seeing the data as well, in part to see if the COSH list has any bldgs in Bklyn. If there are bldgs in Bklyn, were they inspected for residual external debris, and found to be free of residual debris?

Subject: Lab assignments

Leonard:

Be advised that Joe Blackman and George Anakhu are critical personnel in the hazmat lab and must not be used for any other purpose without request from the Division. George should not be used for asbestos analysis except for proficiency and on call duties. There must always be an asbestos analyst in the lab at all times during regular hours as that has always been the policy for operation. If George wants to work on his day off on the WTC project he may under your direction and supervision. Kim
