Subject: asbestos

Despite DEP's frequent attempts, there is still no definitive resolution regarding the single finding by ATSDR of >1% asbestos inside of an apartment (90 Gold Street) (Jessica/Nancy--Was the original sample by microvacc or bulk?). The landlord has indicated that the apartment was cleaned subsequent to the test, but DEP has been unable to gain access to the apartment to do an inspection (details will be provided by DEP re the landlord's name and contact info, and a summary of DEP's efforts).

Dr Frieden has indicated that we need closure on this apartment, in that it is the only residential space in the ATSDR study with greater than 1% asbestos present at the time their testing occurred. What are DOH's options in gaining access? DEP is available to accompany DOH when we gain access, and DEP will conduct an inspection. The inspection may confirm that there is no visible dust present on which an asbestos test can be done, at which point, this location can be officially classified as resolved.

Subject: Emergency Overtime Waiver

Due to heightened security procedures implemented in the aftermath of Sept. 11th, the Bureau of Environmental Compliance has been requested to participate in security details for an increasing number of high profile events in the city, the next being Fleet Week. In addition, we will be implementing the rooftop and facade remediation project very shortly which will require a tremendous amount of supervision of contractors in the field.

It is necessary that we request an emergency overtime waiver for the following staff members in the percentages indicated:

Moustafa Fawzy - 50%
 Stanley Siebenberg - 50%
 Wai Man Wong - 50%
 Christopher Haas - 50%
 Stanley Baldwin - 50%
 Elie St. Jean - 50%
 Roberto Diaz - 50%
 Howard Schneider - 50%
 Leonard Atteloney - 40%
 George Anaku - 30%
 Ahmad Soloki - 30%
 Emmanuel Brutus -30%
 Ramasubbu Rammohan - 50%
 Alphonso Plumptre - 50%

If you have any questions, please let me know.
