Subject: the final version of matrix sent to fema

hi. hope you had a nice weekend.

still awaiting a copy of the fema matrix that was sent. will appreciate it, so we can put our final interagency agreement together consistent with it.

will get back to you later today to review the comments mike had sent friday night on the scopes of work many of these we have gone over before. but let's decide how to bring them to closure in a final form that we are all comfortable with and avoid any further confusion. later, kc
