In accordance with my previous message to Paul Barry attached is a revised matrix for your resubmission to FEMA. Please let us know if you have any questions. As I was studying these numbers again today I noticed on your cost sheet there is not a sampling estimate for the 3000 common spaces, I only could find an estimate for the 500 common spaces requiring scope B, I don't know where the estimate is for the other 2500 common spaces. Please let us know where that value is. Thanks
