Subject: i remembered...

what the other items were...

did you check with nyc DOH on the scope of work language where we will refer dwellings with mold to them for inspection and advice?

we still need a list of all unoccupied, uncleaned buildings to give to nadler/staff with a status of pending action report. i think this will be a point they will hammer us on as we move forward on cleaning, if we can't identify the buildings and be aware of their clean up schedules. will you share this information with us and nadler's office?

thanks. see you tomorrow, kc
